

PowerTerm® WebConnect

ENTERPRISE-WIDE APPLICATION ACCESS

Ericom's PowerTerm WebConnect offers organizations a secure and easy-to-administer solution that's cost-effective for enterprise-wide deployments of Server-based Computing and Web-to-host access.

THE ALTERNATIVE TO CITRIX

PowerTerm WebConnect offers compelling advantages over Citrix® Presentation Server™ – in scope, ease of use, and price, including:

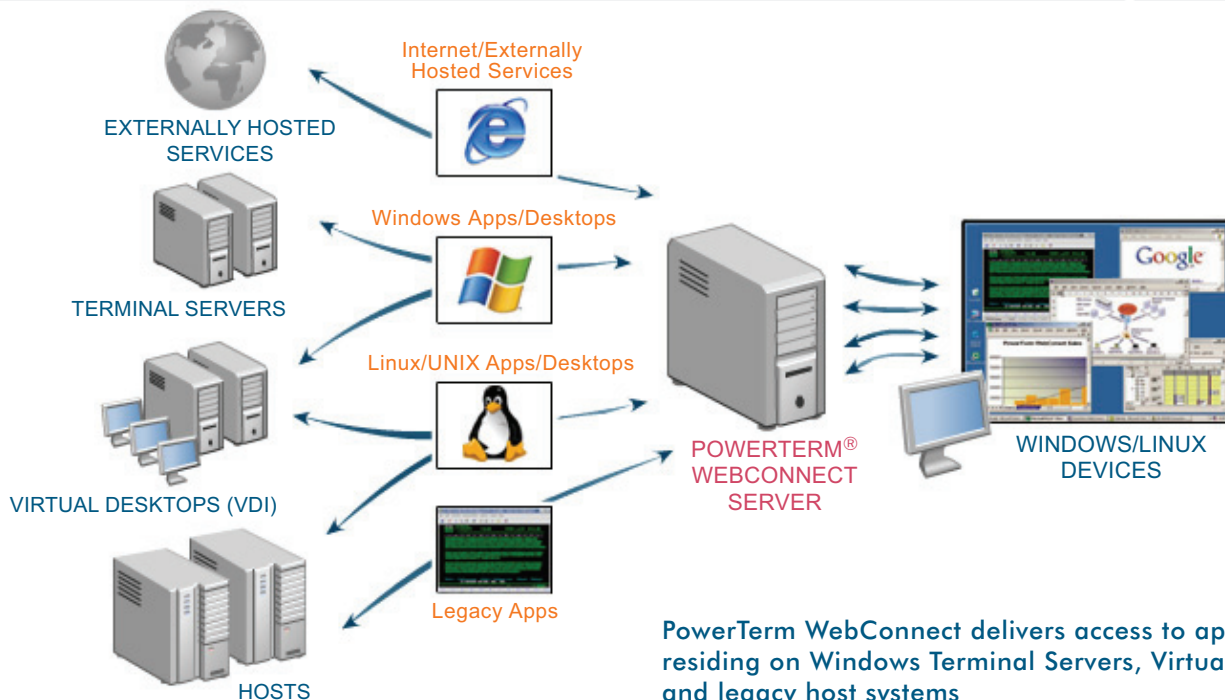

- **Integrated access** to Windows® Terminal Server, Virtual Desktops AND legacy host systems
- **Faster deployments in minutes** vs. several days for typical Citrix installations
- **Costs 1/3 to 1/2 the price of Citrix** with reduced IT complexities and overhead
- **Lower licensing and hardware costs** by enabling organizations to support 20-50% more sessions per Terminal Server than Citrix
- **Provides built-in remote desktop support** at no extra cost

MEETING REAL-WORLD IT CHALLENGES

PowerTerm WebConnect helps organizations address IT challenges in ways that align IT with business needs.

- **Provide secure remote access** to applications – anytime and anywhere
- **Optimize the IT infrastructure**, while reducing the cost of managing applications and desktops
- **Protect privacy** of sensitive business applications and customer information
- **Enable business continuity** with high availability of applications and remote access
- **Comply with global industry standards** (e.g., SOX, JSOX, HIPAA) and government directives for providing flexible working modalities

All these benefits are backed by Ericom's global presence and technological expertise, and augmented by excellence in support and professional services.

PowerTerm WebConnect delivers access to applications residing on Windows Terminal Servers, Virtual Desktops and legacy host systems

POWERTERM® WEBCONNECT KEY BENEFITS

- **Enables efficient business practices:** PowerTerm WebConnect reduces the complexity and costs of application access, deployment and remote desktop management — across the enterprise and beyond.
- **Provides flexible solutions for agile and productive businesses:** PowerTerm WebConnect facilitates a rapid and effective response to mergers and acquisitions, the opening of branch offices, and outsourcing.
- **Reduces TCO and increases ROI:** PowerTerm WebConnect reduces IT complexities, enhances server performance, increases productivity levels and lowers licensing costs.
- **Quick and easy deployments:** PowerTerm WebConnect removes the hassle of supporting tens or even thousands of users no matter where they are — local or remote.
- **Empowers a mobile workforce** with on-demand remote access to mission-critical applications and data.

POWERTERM® WEBCONNECT KEY FEATURES

- **Enterprise-level security** includes support for SSL Gateway, Single Sign-On, Kerberos, integration with leading SSL VPNs and two-factor authentication. Encrypt connections from clients to Terminal Servers, even across public networks.
- **Seamless LDAP integration (Microsoft Active Directory® and Novell® eDirectory™ support)** leverages existing LDAP user /group configurations. Save significant time in integrating PowerTerm WebConnect into the organization while enhancing security.
- **Highly scalable load balancing** between Terminal Servers and applications prevents server overload and downtime, thus improving workflow, productivity, and user experience.
- **Remote Desktop Support** offers secure, remote access and control over a user's entire desktop for either training or real-time troubleshooting.
- **Supports diverse user platforms** including the Windows Vista™ operating system, Linux desktops, thin clients (CE, XPe and Linux-based), and others.
- **Universal Printing** capability via integration with leading technology providers.

POWERTERM® WEBCONNECT PRODUCT LINE

- **PowerTerm WebConnect Enterprise**
Provides access to applications and published desktops residing on Windows Terminal Servers and legacy host systems
- **PowerTerm WebConnect RemoteView**
Provides access to applications and published desktops residing on Windows Terminal Servers
- **PowerTerm WebConnect HostView**
Provides Web-based access to legacy applications, with support for over 35 terminal emulation types
- **PowerTerm WebConnect for Lotus**
Server-based Computing and Web-to-host access from within the IBM® Lotus® Expeditor framework
